It is the exceptional student who has any conception how to figure out the precision of a final computed result from the precision of his individual measurements, and this is true even though his laboratory note-book shows his work to have been carefully and creditably performed. It is the author s firm conviction that one of the most valuable and enduring benefits of physical laboratory training to a student of Science or Engineering is the acquisition of the proper view-point with which to approach an investigation, be it either...
