MSFC THERMAL PROTECTION SYSTEM MATERIALS ON MISSE-6 (PAPERBACK)

MSFC Thermal Protection System Materials on MISSE-6

NASA Technical Reports Server (NTRS), et al., Miria M. Finckenor

Bibliogov, United States, 2013. Paperback. Book Condition: New. 246 x 189 mm. Language: English . Brand New Book ***** Print on Demand *****.The Lightweight Nonmetallic Thermal Protection Materials Technology (LNTPMT) program studied a number of ceramic matrix composites, ablator materials, and tile materials for durability in simulated space environment. Materials that indicated low atomic oxygen reactivity and negligible change in thermo-optical properties in ground testing were selected to fly on the Materials on International Space Station Experiment (MISSE)-6. These samples...

Reviews

This book might be worth a read, and far better than other. It is rally interesting through studying time period. I discovered this book from my i and dad suggested this ebook to find out.

-- **Isobel Bailey**

Here is the very best book i have study until now. It is rally fascinating through looking at period of time. It is extremely difficult to leave it before concluding, once you begin to read the book.
