

Photoshop 7 for Windows and Macintosh

By Weinmann, Elaine;Lourekas, Peter

Peachpit Pr, Berkeley, California, U.S.A., 2002. Mass Market. Book Condition: New. Some shelf wear, previous owner's name on inside cover. Weinmann and Lourekas have written other popular Visual QuickStart Guides on QuarkXPress, Illustrator, LiveMotion and Painter. Here they deliver just what they promise: detailed illustrations, concise explanations, and step-by-step instructions that should enable beginning and intermediate users to find their way around Photoshop fairly quickly. They include a special chapter for preparing images for the Internet, as well as instructions for scanning images for print and for the Web; tips for opening and adjusting images from photo CDs; basic techniques for (correctly) changing an image's dimensions or resolution; and coverage of more advanced topics such as using layers, filters, libraries, and palettes.
